Product Description

Electronic Fuel Injection (EFI) From the moment you crank the engine to the moment you drop the throttle, EFI technology (on 8 to 20hp outboards) responds with instant power. Surefire starting in all weather conditions. Smooth, efficient acceleration. Maximum fun. Battery-Free EFI Go farther confidently with battery-free EFI technology, included with manual-start 8 to 20hp outboards. It lets you enjoy the flexibility of portability, without needing to bring along a cranking battery. Convenient Maintenance We made maintenance easier with features like a no-spill oil change system, easy-out fuel filter and lifetime maintenance-free valve train Easy Portability Simple to install and lightweight, 2.5 to 20hp FourStroke outboards let you bring along the fun wherever it's needed.
